Jon William Toigo is CEO and Managing Principal of Toigo Partners International LLC, an independent consultancy and information technology research and analysis firm focused on providing meaningful guidance to IT consumers and decision makers. He is also chairman of The Data Management Institute LLC, a professional development organization he founded for those who design, plan, manage and administer storage infrastructure and data assets.

He is a 20-year IT veteran who has worked both as an operative within corporate information systems departments and as a senior consultant with two international systems integrators. He is also a prolific writer with 15 books and thousands of articles in the technology trade press to his credit. His technology columns in seven popular print and on-line media garner a loyal readership of more than 500,000 per month worldwide.
